CRTT: Moodle and EdPuzzle Guide

Table of Contents

Purpose of this Guide

The guide is meant to collect all the foundational and fundamental information that FloodLAMP needs to finish the content creation and learning experience development process of their v1 training program.

CRTT: Moodle and EdPuzzle Guide

Moodle Account Login (Statistics, Billing, Tools)

This is the **GENERIC** Moodle Cloud Login page where you are logging in as a System Admin for any Moodle Cloud:

https://moodlecloud.com/app/en/login

To log in as ADMIN on this page use:

Username: Floodlamp

Password: LAMPlamp11!!

This is the **FLOODLAMP** Moodle Cloud Login Page where you are logging in as any FLOODLAMP user.

https://floodlamp.moodlecloud.com/

To log in as ADMIN on this page use the following, but **NOTE!** this is the SAME USER:

Username: Floodlamp

Password: LAMPlamp11!!

Video Demo for Admin Login

User Tours can be Confusing

We've disabled the User Tours. When User Tours are used for a large and complex Moodle they might be very useful but in a simple, single course with self-enrollment, the User Tours confused some test users.

Creating EdPuzzle Content

https://www.loom.com/share/81c4c711f8bb42cf92a509401d4acba5
NOTE! Once EdPuzzle Content has been LINKED via this integration, if you move the video on Edpuzzle side, rename it, or put it in a new folder the integration won't be able to find it. It will show a page like this instead: *"This assignment is currently inactive. Ask your teacher if you have any questions."*

EdPuzzle Work Around for Learners

JLX created directions right in the Moodle Course for the learners.
It is very easy for them!

Self Assessment Options

Great forum post discussing Options:

https://moodle.org/mod/forum/discuss.php?d=394827

(TLDR; Quiz is likely the most efficient option)

JLX Trying Out a Moodle "Lesson":

Activity Completion Settings

How to Page

1. JLX set the current Course to a **Default** Activity Completion for **External Tools** (E.g. EdPuzzle) and **Pages.** This setting changes the default settings from Manual, meaning the student would have to Mark it Complete, to Automatic so that when they've viewed it, it shows as Done.
   a. Be aware as you add any new content that the completion settings are not set to manual (Moodle will show this for manual: "Student can manually mark the activity as completed")
   b. Update new content to: "Show activity as complete when conditions are met" which will be followed by: "Student must view this activity to complete it"
2. JLX already updated **all the current pages in the course** to these settings:
   a. "Show activity as complete when conditions are met"
   b. "Student must view this activity to complete it"

Copying Courses in Moodle

https://www.loom.com/share/f707fec983764f40a949abd3e588722d

NOTE! In addition to recreating EdPuzzle video links in the new course, you will ALSO have to create a NEW Google Form to keep the learner videos separated in different folders.
